[GROUND WATER – Estimation of Ground Water Resources of Tamil Nadu as on March, 2013 – Categorization of Firkas as Over Exploited, Critical, Semi-Critical, Safe and Saline / Poor Quality for Ground Water Development in Tamil Nadu – Approved – Orders – Issued.]

The following Government order is published:—

[G.O. Ms. No. 257, Public Works (R2), 1st October 2018, புரட்டாசி 15, விளம்பி, திருவள்ளூர் ஆண்டு-2049.]

READ :

1. G.O.(Ms).No.326, Public Works Department, Dated 23-11-1993.
2. G.O.(Ms).No.51, Public Works Department, Dated 11-02-2004.
3. G.O.(Ms).No.52, Public Works Department, Dated 02-03-2012
4. G.O.(Ms).No.142, Public Works Department, Dated 23-07-2014
5. G.O.(Ms).No.113, Public Works Department, Dated 09-06-2016
6. From the Chief Engineer, State Ground and Surface Water resources Data Centre, Letter No. DD (G)/AG-V/Assessment/2013, Dated 31-10-2017.

ORDER:G.O. Ms. No. 257, Public Works (R2), 1st October 2018.

Based on the development of the ground water resources, the Panchayat Union Blocks in Tamil Nadu were categorized as Dark and Grey areas as on January 1992 and January 1997 in the Government Order 1st read above. The Blocks with ground water development between 85% to 100% were categorized as “Dark Blocks” and the Blocks with ground water development between 65% to 85% were categorized as “Grey Blocks”. The Government directed that no Scheme should be formulated in the Dark Blocks and that in the Grey Blocks, Schemes should be formulated in consultation with the Ground Water Wing of the Public Works Department only. The above categorisation was done in accordance with the then prevailing Ground Water Estimation Committee – 1984 (GEC-1984) Norms. Thereafter, the Committee constituted by the Ministry of Water Resources, Government of India, has recommended to adopt the GEC-1997 Norms for estimation of the ground water resources in all the States.

2. In the Government Order second read above, the Government approved the categorization of the Panchayat Union Blocks in Tamil Nadu as Over-Exploited, Critical, Semi-Critical and Safe Blocks for ground water development as on January, 2003. The Government directed that no Schemes should be formulated in the Over Exploited and Critical Blocks and in the Semi-Critical and Safe Blocks, all the Schemes should be formulated in consultation with the State Ground and Surface Water Resources Data Centre of the Water Resources Organisation in the Public Works Department. It was also ordered therein that the term “Scheme” excludes energisation of agricultural pump sets by the Tamil Nadu Electricity Board. The Government further directed that appropriate rain water harvesting and artificial recharge schemes be carried out in all the categories of Blocks and while carrying out the above Schemes, priority should be given to the Over Exploited and Critical Blocks so as to avoid further deterioration.

3. In the Government Order third read above, the Government approved the categorization of the Over-Exploited, Critical, Semi-Critical and Safe Blocks based on the assessment of the State Ground Water Resources as on March 2009. All the Over Exploited and Critical Blocks were notified as A Category Blocks (where the stage of ground water extraction is 90% and above) and all the Semi Critical and Safe Blocks were notified as B Category Blocks (where the stage of ground water extraction is below 89%). The Government directed that no Schemes should be formulated in Over Exploited and Critical blocks “Notified as A Category Blocks” In Semi-Critical and Safe Blocks “Notified as B Category Blocks”, all the Schemes should be formulated through the State Ground and Surface Water Resources Data Centre of the Water Resources Department and the Chief Engineer, State Ground and Surface Water Resources Data Centre, would issue “No Objection Certificate” for ground water clearance. The Government further directed to exclude the ground water drawal for domestic purpose by individual household; domestic Infrastructure Project (Housing); Government’s Drinking Water Supply Schemes and Non Water based Industries (i.e., the industries which do not require and use water, either as raw material or for other processing). The Chief Engineer, State Ground and Surface Water Resources Data Centre, would permit domestic use of water by these Non Water based Industries by issuing “No Objection Certificate” based on the hydro-geological conditions. The Government further directed that appropriate Rain Water Harvesting and Artificial Recharge Schemes should be carried out in the categories viz, Over exploited, Critical, Semi Critical and Safe Blocks of Tamil Nadu and while carrying out the above Schemes, priority should be given to marginal quality and bad quality areas so as to avoid further deterioration. The Government further directed that all

the Schemes and Proposals based on ground water would have to adhere to the Government Orders and Conditions detailed in the Annexure-II to the above mentioned Government Order. This Government Order had been upheld by the Hon'ble Bench of Madras High Court, in its Common Judgement dated 18-09-2013, in WA Nos. 923 to 926 of 2009, etc. WP Nos 23116 of 2006, 23896 to 23900 of 2016, 4711 of 2004 and 12375 of 2008. The Hon'ble High Court had made it clear that even with the repealing of the Tamil Nadu Ground Water (Development and Management) Act, 2003, this GO would govern the interest of the parties and the State in the matter of regulating the business of the Writ Appellants.

4. In furtherance of the Orders and Instructions issued in the Government Order third read above, the Regulations for management of groundwater and Issue of No Objection Certificate / License for extraction of groundwater in the State were approved in the Government Order fourth read above.

5. Subsequently, in the Government Order fifth read above, the Dynamic Groundwater resources in the State were estimated taking a Revenue Firka as an unit of assessment by the State Level Technical Co-ordination Committee as on March 2011 and accordingly the Government have approved categorization of the Over-Exploited, Critical, Semi-Critical, Safe and Saline Firkas based on the above assessment.

6. In the letter sixth read above, the Chief Engineer (State Ground and Surface Water Resources Data Centre) has sent a proposal to the Government for approval of Estimation of the Dynamic Groundwater Resources in Tamil Nadu as on March 2013 and Categorisation of Firkas and requested for approval of the Ground Water Assessment 2013 and notification of the Categorization of the Firkas of Tamil Nadu based on the above assessment.

7. The Government have decided to approve the categorization of the Revenue Firkas in the State based on the Estimation of the Dynamic Ground Water Resources as on March, 2013 and accordingly, the Government approve the categorisation of the Revenue Firkas as Over-Exploited, Critical, Semi-Critical, Safe and Saline/Poor Quality as detailed in the Annexure of this Order, which shall be notified in the *Tamil Nadu Government Gazette*.

8. The Chief Engineer(State Ground and Surface Water Resources Data Centre),Water Resources Department is directed that appropriate rain water harvesting and Artificial recharge schemes shall be carried out in the categories viz, Over exploited, Critical, Semi Critical, Safe and saline/Poor quality Firkas of Tamil Nadu. While carrying out the above Schemes, priority shall be given to marginal quality and bad quality areas so as to avoid further deterioration.

(By order of the Governor)

ANNEXURE to G.O (Ms) No. 257, Public Works(R2) Department, Dated: 01-10-2018
Categorisation of Firkas in Tamil Nadu as on March 2013
