## **OPENING OF THE TECHNICAL BID**

- 1.7) Bids received shall be opened online at the specified date and time given in Notice Inviting Tender (NIT) at the Office of The Commissionerate of Stationery and Printing, 110, Anna Salai, Chennai-600 002.

## **PRICE BID / BOQ (To be downloaded from the portal)**

- 1.8) The second part of the tender consist of the forms for the **"PRICE BID / BOQ"** in Excel format. The tenderer would be required to give their best price in this form.
- I. The PRICE BID / BOQ should be submitted only in electronic form (Excel format) as per the prescribed format given in the E-Procurement portal. The PRICE BID / BOQ should not be renamed after quoting their prices.
  - II. The rates finalised for the award of contract shall be kept firm for a period of one year from the date of issue of letter of acceptance / award of Contract.
  - III. The PRICE BID / BOQ should not contain any commercial conditions. Variation in the commercial terms and conditions of the tender will summarily be rejected.

- IV. Tenderers are required to quote their price in Indian Rupees for each item of the article mentioned in Price bid / BOQ
- V. The PRICE BID / BOQ will be opened only after testing the suitability of the samples by the Tender Inviting authority.
- VI. The PRICE BID / BOQ will not be opened in case the samples failed the suitability test.
- VII. Tenderers are specifically requested to quote rates for articles specified in the price bid Annexure – A **only if they have sufficient stock and without their own conditions, delivery terms, etc.,**
- VIII. The tenderers are requested to quote their rates for each item giving breakup for basic price and applicable GST @ applicable rates
- IX. No changes, amendments which materially alter the tendered prices shall be permitted after the opening of tender.

## EVALUATION

- 1.9) As explained earlier, this tender is of "TWO BID" system. First the Technical bid will be opened on the due date and time of opening of the tender through <https://tntenders.gov.in> . The relevant documents will be evaluated offline for its genuinity and samples for conformity with specification.
- 1.10) THE SUCCESSFUL TENDERER WHO QUALIFIES IN THE TECHNICAL EVALUATION AND TESTING OF SAMPLES WILL ONLY BE CONSIDERED FOR PRICE BID / BOQ OPENING. TENDERERS WHO DO NOT QUALIFY IN THE TECHNICAL BID WILL NOT BE CONSIDERED FOR PRICE BID / BOQ OPENING
- 1.11) For those who do not qualify in "Technical Bid", the EMD will be refunded, without interest after finalisation of tender.
- 1.12) Technical evaluation will be done offline as required in Part-3 and Annexure-A.
- 1.13) L1 Selection will be based on the total price quoted per unit i.e., Basic price + applicable Taxes, for each item specified in the Annexure 'A'. For determining the lowest evaluated price the rule 29(2) of the Tamil Nadu Tender e-transparency Tender in Rules 2000 and Tamil Nadu Transparency in Tenders (Public Private Partnership Procurement Rules, 2012). will be followed.
- 1.14) In the event of two or more tenderers have made the same financial bid, the Tender Accepting Authority will identify the lowest tenderer by adopting the method as prescribed in Rule 29(4) of the Tamil Nadu Transparency in Tender Rules, 2000. The Tenderers will be asked to provide their best and final offer

of the financial bid in a sealed cover and the tenderer offering the most advantageous financial bid shall be adjudged as the lowest tenderer.

- 1.15) In case, a tie still persists after the procedure stated above has been followed, selected tenderer shall be identified by draw of lots, which will be conducted, with prior notice, in the presence of the tied bidders or their authorized representatives who choose to be present.

1.16) **Price Negotiation:**

The procuring entity reserves the right to negotiate with the lowest acceptable bidder (L1) before awarding the contract. Negotiations will be done by the Commissioner / Authorised representatives of the Commissioner of Stationery and Printing as provided in Rule 29(3) of the Tamil Nadu Tender Transparency Rules, 2000 and Tamil Nadu Transparency in Tenders (Public Private Partnership Procurement Rules, 2012).

1.17) **Sample:** (If Applicable)

- I. Tenderers should submit their samples in a sealed cover to the office of General Manager, Department of Stationery and Printing, 110, Anna salai, Chennai-2 from the date of bid submission.
- II. The sample should reach the Office of General Manager, Department of Stationery and Printing, 110, Anna salai, Chennai on or before the last date of bid submission. Only one kind of sample for each item with the details of brand and grade of the product should be mentioned in the sample's cover.

## **REJECTION OF LATE TENDERS AND INCOMPLETE TENDERS**

- 1.18 Incomplete tenders and those not in conformity with the tender specifications will be rejected.

## **PRE-BID MEETING**

- 1.19 (a) The bidder or his official representative is invited to attend a pre-bid meeting which will take place at the office of General Manager Commissionerate of Stationery and Printing, 110, Anna Salai, Chennai-600 002.
- (b) The purpose of the meeting will be to clarify issues and to answer questions on any matter that may be raised at that stage regarding this tender.

- (a) One percent for State GST on such payment made or credited for supplies within the state

- (b) One percent for Central GST on such payment made or credited for supplies within the state and
- (c) Two percent for integrated GST on such payment made or credited for inter-State supplies.

### **COMMUNICATION OF ACCEPTANCE**

- 3.20 The acceptance of the tender by the purchaser will be communicated by a award of contract / Supply order by post or by e-mail with proper acknowledgement.
- 3.21 The purchaser reserves the right to place order on successful bidder for additional quantity at the rates quoted by the successful bidder from the date of acceptance of the tender for the period of one year.

### **SUPPLY ORDER AND DELIVERY**

- 3.22 The selected Tenderer must be ready to supply the Articles as mentioned in Annexure-A as per the size, quality, quantity and place of delivery as mentioned in the supply order / Award of contract.
- 3.23 All the tendered Articles should be delivered in satisfactory condition within the date specified in the supply order at free of cost.
- 3.24 The Quantity given in the Tender is only approximate. Supply Orders will be placed only for the actual quantity as and when required in total or in part supply to Government Central Press Chennai-01 and other Government Branch Presses located at Madurai, Trichy, Pudukottai, Salem and Virudhachalam.
- 3.25 Any other conditions, which the Tender Accepting Authority may deem fit and proper, will be imposed at the time of placing of supply orders.
- 3.26 Goods will be accepted after ascertaining its suitability and in case of any deviation in the quality / specification of the item, it shall be liable for rejection. The test report of Stationery and Printing Department is final. The rejected items should be cleared from our premises within 5 days from the date of intimation at supplier's risk and cost.
- 3.27 Priority assistance for movement of goods, licenses or permits required for executing any supply, cannot be arranged by this department. They should be attended by the tenderers themselves. Booking restrictions cannot be a plea for the failure to supply the articles within the stipulated time.

**THE TENDER ACCEPTING AUTHORITY RESERVES :-**

- 3.28
- (a) the right to reject all or any of the tenders without assigning any reason.
  - (b) the right to split up the tender as he deems necessary.
  - (c) to negotiate with the L1 Tenderer before entering into agreement
  - (d) the right to accept one or more tenderers for supply of one item.
  - (e) the right to cancel the tender process if the performance of the firms in the previous tenders is not satisfactory, the Tender Accepting Authority has the powers to reject the tender.
  - (f) the right to abandon the procurement of the goods; or
  - (g) the right to issue another tender for identical (or) similar goods.
  - (h) The right to accept the tender either in full or in part and either to increase or decrease the quantities to be purchased.
  - (i) The Tender Accepting Authority shall ordinarily be permitted to vary the quantity finally ordered only to the extent of twenty five percent either way of the requirement indicated in the tender documents.

**FAILURE AND TERMINATION**

- 3.29 In case of delay, neglect or refusal on the part of The contractor to supply and deliver any of the articles ordered for without prejudice to the right of the purchaser, may recover damages for breach of contract after giving a notice.
- a) After getting the supply order, if the supplier fails to supply within due date or not able to supply or fails to replace the rejected articles within the due date, then it can be purchased from other sources and the difference in cost between the prices paid for such articles when purchased from other sources will be recovered from the contractor.
  - b) Termination for default is said to have occurred if the successful tenderer fails to deliver any or all of the tendered articles within the time period specified in the supply order.
  - c) If the successful tenderer does not make any remedial steps within a period of 5 days after receipt of the default notice from this department, the department may cancel the contract in total or a portion thereof.

**PENALTY**

3.30 Penalty will be of 1% of the basic price charged for the delay in supply for the first 15 days and thereafter it will be 2% of basic price.

**PAYMENT UNDER THE CONTRACT**

3.31 (a) No request for advance payment shall be accepted.

(b) All bills for supply will be admitted for payment only after the supply.

(c) On receipt of bills, payment shall ordinarily be arranged for articles delivered and accepted by this department at the accepted rate intimated to them in the Supply order.

(d) Any upward revision in claim of GST after issue of supply orders by the Commissioner should be supported by proper evidence. Any reduction of GST after issue of supply orders should also be given effect.

(e) Any upward revision in Net price except GST after issue of supply orders will not be borne by this Department and the extra cost incurred if any will be borne only by the successful tenderer.

**INDEMNITY CLAUSE**

3.32 (a) If at times during the continuance of the agreement/contract, it becomes impossible by reason of war or war like operation, epidemical sickness, pestilence, earthquake, fire, storm or floods, the supplier shall during continuance of such contingencies, not to be bound to execute the contract as per the agreement.

(b) The supply shall be resumed immediately after the contingency/contingencies have ceased or otherwise determined and the successful tenderer's obligation shall continue to be in force for correspondingly extended period after the resumption of execution.

(c) The successful tenderer must inform The Commissioner, Stationery and Printing, by registered post or by any other means about such act at once. In the event of delay lasting over 7 days, if arising out of cause of Force Majeure, the Commissioner of Stationery and Printing reserves the right to cancel the contract without any compensation.

**LAW GOVERNING THE CONTRACT**

- 3.33 In respect of any **Tender condition**, the decision of the Commissioner of Stationery and Printing, Chennai-600 002, shall be final and binding.
- 3.34 In the event of any dispute or difference arising during the subsistence of the contract touching any clause matter, or thing herein contained or the operation or construction hereto or the rights, duties, or liabilities of either party under or in connection therein then and in every such case except where herein otherwise stated that the decision of the Secretary to Government of Tamil Nadu of the concerned Administrative Department upon such dispute or difference shall be final and conclusive as against any binding upon each of the parties here to.
- 3.35 The courts at Chennai alone shall have jurisdiction to decide any disputes arising out of or in respect of this contract.

GENERAL MANAGER,  
TENDER INVITING AUTHORITY.

Ability to quick-dry by absorption , oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol.            1 Kg. should have run length of 35,000 to 40,000 impressions of A2 size at machine speed of 20,000 to 30,000 impressions per hour.</p>	kg	1480	1 kg

3	<p><b>Web offset Black ink Quick Set (High Speed) for Orient</b> Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 35,000 to 40,000 impressions of A2 size at machine speed of 20,000 to 30,000 impressions per hour.</p>	kg	2000	1 kg
4	<p><b>Web offset ink -Majenta (High Speed) for Orient M/c</b> Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 25,000 to 30,000 impressions of A2 size at machine speed of 20,000 to 30,000 impressions per hour.</p>	kg	1200	1 kg
5	<p><b>Web offset ink -Cyan (High Speed) for Orient M/c</b> Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 25,000 to 30,000 impressions of A2 size at machine speed of 20,000 to 30,000 impressions per hour.</p>	kg	800	1 kg

6	<p><b>Web offset ink -Orange (High Speed) for Orient M/c</b>  Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol.  1 Kg. should have run length of 25,000 to 30,000 impressions of A2 size at machine speed of 20,000 to 30,000 impressions per hour.</p>	kg	1000	1 kg
7	<p><b>Web offset ink -Green (High Speed) for Orient M/c</b>  Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 25,000 to 30,000 impressions of A2 size at machine speed of 20,000 to 30,000 impressions per hour.</p>	Kg	1000	1 kg
8	<p><b>Web offset ink -Purple (High Speed) for Orient M/c</b>  Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 25,000 to 30,000 impressions of A2 size at machine speed of 20,000 to 30,000 impressions per hour.</p>	Kg	800	1 kg

9	<p><b>Web offset four colourprocess ink- Majenta (High Speed) for Orient M/c</b>  Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol.</p>	kg	100	1 kg
10	<p><b>Web offset four colourprocess ink -Cyan (High Speed) for Orient M/c</b>  Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol.  1 Kg. should have run length of 25,000 to 30,000 impressions of A2 size at machine speed of 20,000 to 30,000 impressions per hour.</p>	kg	100	1 kg
11	<p><b>Web offset four colourprocess ink- Yellow (High Speed) for Orient M/c</b>  Specification: Should be viscous and paste free. Ability to quick-dry by absorption,oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol.1 Kg. should have run length of 20,000 to 30,000 impressions of A2 size at machine speed of 20,000 to 30,000 impressions per hour.</p>	kg	100	1 kg

12	<p><b>Web offset four colour process ink - Black-Quick Set (High Speed) for Orient M/c</b></p> <p>Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol.</p> <p>1 Kg. should have run length of 35,000 to 40,000 impressions of A2 size at machine speed of 20,000 to 30,000 impressions per hour.</p>	kg	100	1 kg
<b>Group-III (B) Sheet fed offset Machine Inks</b>				
1	<p><b>Sheet fed Offset Black ink for HMT, Swift, Autoprint M/c</b> Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 20,000 to 25,000 copies of A2 size at the machine speed of 4,000 to 5,000 impressions per hour.</p>	kg	260	1 kg
2	<p><b>Sheet fed Offset Four colour Process Ink (for Komori CPC &amp; HMT) for Foreign Real Art paper - cyan</b></p> <p>Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol.</p> <p>1 Kg. should have run length of 20,000 to 25,000 copies of A2 size at the machine speed of 8,000 to 10,000 impressions per hour.</p>	kg	120	1 kg

3	<p><b>Sheet fed Offset Four colour Process Ink (for Komori CPC &amp; HMT) for Foreign Real Art paper - Yellow</b> Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 20,000 to 25,000 copies of A2 size at the machine speed of 8,000 to 10,000 impressions per hour.</p>	kg	160	1 kg
4	<p><b>Sheet fed Offset Four colour Process Ink (for Komori CPC &amp; HMT) for foreign Real Art paper - Magenta</b></p> <p>Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol.</p> <p>1 Kg. should have run length of 20,000 to 25,000 copies of A2 size at the machine speed of 8,000 to 10,000 impressions per hour.</p>	kg	100	1 kg

5	<p><b>Sheet fed Offset Four colour Process Ink (for Komori CPC &amp; HMT) for foreign Real Art paper - Black</b> Specification: Should be viscous and paste free. Ability to quick-dry by absorption, oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 20,000 to 25,000 copies of A2 size at the machine speed of 8,000 to 10,000 impressions per hour.</p>	kg	100	1 kg
6	<p><b>Sheet fed offset Black Ink for Maplitho Paper (For Komari Machine)</b> Specification: Should be viscous and paste free. Ability to quick-dry by absorption,oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 20,000 to 25,000 copies of A2 size at the machine speed of 8,000 to 10,000 impressions per hour.</p>	Kg	200	1 kg
7	<p><b>Sheet fed offset Cyan Ink for Maplitho Paper (For Komari Machine)</b> Specification: Should be viscous and paste free. Ability to quick-dry by absorption,oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 20,000 to 25,000 copies of A2 size at the machine speed of 8,000 to 10,000 impressions per hour.</p>	Kg	100	1 kg

8	<p><b>Sheet fed offset Yellow Ink for Maplitho Paper (For Komari Machine)</b>Specification: Should be viscous and paste free. Ability to quick-dry by absorption,oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 20,000 to 25,000 copies of A2 size at the machine speed of 8,000 to 10,000 impressions per hour.</p>	Kg	100	1 kg
9	<p><b>Sheet fed offset Magenta Ink for Maplitho Paper (For Komari Machine)</b>Specification: Should be viscous and paste free. Ability to quick-dry by absorption,oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 20,000 to 25,000 copies of A2 size at the machine speed of 8,000 to 10,000 impressions per hour.</p>	Kg	200	1 kg
10	<p><b>Sheet fed offset Purple Ink for Maplitho Paper (For Komari Machine)</b>Specification: Should be viscous and paste free. Ability to quick-dry by absorption,oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 20,000 to 25,000 copies of A2 size at the machine speed of 8,000 to 10,000 impressions per hour.</p>	Kg	200	1 kg

11	<b>Sheet fed offset Green Ink for Maplitho Paper (For Komari Machine)</b> Specification: Should be viscous and paste free. Ability to quick-dry by absorption,oxidation and evaporation and adhere to the paper printed. Must have resistance properties to withstand the rigors of the printing process such as in condition of high shear and heat generated on press as well as the addition of fountain solution and alcohol. 1 Kg. should have run length of 20,000 to 25,000 copies of A2 size at the machine speed of 8,000 to 10,000 impressions per hour.	Kg	200	1 kg
